

A unique opportunity to reset your strategy and upskill your workforce!

Manufacturing business leaders face many challenges today including talent shortages, technology – what to invest in and when, how to transition to sovereign capability and broken supply chains to name a few.

Attending this half-day complimentary workshop in Villawood on October 24 is a great way to re-assess your strategic priorities through the futuremap[®] diagnostic tool, identify your skills gaps, and access free micro-credential courses to train your workforce. Our mission is to assist you to accelerate your growth with practical solutions that add value.

Following this event, you will have a clearer idea of where to focus over the next 2 years, access to knowledge, capital and human resources to help you get there. More specifically and practically, you will get:

- A 2-year strategic roadmap/report with recommendations and resources
- Hear about modern manufacturing technology insights and case studies
- Support for the development of your workforce with access to free micro-credentials
- Access to talent, collaborative technology facilities and expertise
- Meet industry peers, exchange ideas and make new connections

About futuremap:

Feedback tells us 92% of the businesses that attend will review their futuremap roadmap report and its recommendations. 88% would recommend the workshop, and 80% found the workshop thought-

provoking and would accelerate their adoption of technology.

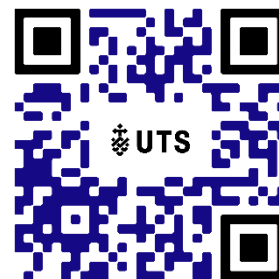

In total, more than 800 industry leaders have used the futuremap tool which is uniquely designed to assist manufacturing businesses to assess and map their maturity levels and capabilities in the areas of:

- market positioning
- leadership, strategy and change management
- innovation and use of technology
- digital manufacturing (Industry 4.0)

Who should attend:

Bring your leadership team responsible for strategy, culture, human resources, operations and customer experience.
